

## Course accreditation criteria

The standards for accreditation of training programs have been developed by specialized experts with high qualifications to be consistent with general education and training policies. CIDA FRANCE standards for the accreditation of training programs mainly contribute to helping trainers to design and compose distinct, integrated training content within an organized and professional framework.

Degrees	Items
<b>200</b>	<b>Program Framework</b>
40	Course introduction
40	Course Objectives
40	Learning Outcomes
